Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at http://about.jstor.org/participate-jstor/individuals/early-journal-content.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

PAGE

Actinomyces - - - - - - - - - - - - - - 99
Agglutination, changes in hydrogen-ion concentration in - - - - 651
ALBERT, HENRY. See ERICKSON, MARY J. - - - - - - - - 268
Ameba-like organism in kidneys of child - - - - - - - - 636
Anaerobic bacteria - - - - - - - - - - 1, 18, 33, 445
Anaerobes, sporulating - - - - - - - - - - - - - 445
Anaphylatoxin - - - - - - - - - - - - - - 107
Anaphylaxis - - - - - - - - - - 50, 107, 259, 333, 418
Anaphylaxis, by eye tissues - - - - - - - - - - - 418
Anaphylaxis, effect of roentgen ray and mustard gas on, in guinea-pigs 50
Anaphylaxis, serum, specificity of desensitized state in - - - - 333
Antibody production after intratracheal injection of antigen - - - 347
ARMANGUÉ, MANUEL, AND GONZALES, PEDRO. Studies on the formol and Wassermann reactions - - - - - - - - - - - - - 443
AYERS, S. HENRY, AND RUPP, PHILIP. Differentiation of hemolytic streptococci from human and bovine sources by the hydrolysis of sodium hippurate - - - - - - - - - - - - - - 388

B

B. aerofoetidus, metabolism of - - - - - - - - - - 190
B. alkalescens, nitrogenous metabolism of - - - - - - - - 248
B. bifermentans, metabolism of - - - - - - - - - - 182
B. botulinus, metabolism of - - - - - - - - - - 177
B. botulinus, pathogenicity of - - - - - - - - - - 118
B. coli, nitrogenous metabolism of - - - - - - - - - 239
B. diphtheriae, effect of peptone on toxigenic property of - - - 536
B. dysenteriae (Shiga) metabolism of - - - - - - - - 226
B. fallax, metabolism of - - - - - - - - - - 163
B. histolyticus, metabolism of - - - - - - - - - 199
B. lactimorbi in throats of cats - - - - - - - - - 505
B. oedematiens, metabolism of - - - - - - - - - 185
B. paratyphosus, metabolism of - - - - - - - - - 233
B. paratyphosus B., epizootic of guinea-pigs due to - - - - - 516
B. paratyphosus B, metabolism of - - - - - - - - - 236
B. proteus, nitrogenous metabolism of - - - - - - - - 251
B. pseudotetani, metabolism of - - - - - - - - - 175
B. putrificus, metabolism of - - - - - - - - - - 204
B. sporogenes, metabolism of - - - - - - - - - - 193
B. tertius, metabolism of - - - - - - - - - - 167
B. tetani (genus Nicolaierillus) - - - - - - - - - 13, 33
B. tetani, metabolism of - - - - - - - - - - - 170
B. tuberculosis, ammonia production by - - - - - - - - 357
B. tuberculosis, cultivation of - - - - - - - - - - 58
B. typhosus, metabolism of - - - - - - - - - - 229
B. typhosus, production of CO_2 by - - - - - - - - - 320
B. welchii, metabolism of - - - - - - - - - - - 141
Bacteria, metabolism of 141, 155, 163, 167, 170, 175, 177, 182, 185, 190, 193, 199, 204, 211, 225, 226, 229, 233, 236, 239, 245, 248, 251
